

Survival Horror Character Pack v.1.0

Thank you for purchase the pack!

Instructions:

1. You can select the correct **material** for each model depends on your render pipeline under the Materials folders (HDRP/URP/Standard)
2. Open the **demo scenes** depends on your render pipeline too (HDRP/URP/Standard)
3. A not-rigged **prefab** version of the models are available just for testing purposes.
4. If you want to **rig the characters** easily you can use free auto-rigged solutions like Mixamo.
5. After rigged process you can use all this characters on All top rated **Character Controllers** like Invector / GKC / Opsive / Cover Shooter Template.

If you have some **questions** about the pack or need new characters variations, custom textures, facial blendshapes,etc please visit the links below:
